For solutions, download the FirstHope app now.

CLASS 10

Computer Applications

Chapterwise Important Questions

3 sections | 24 original questions | 2026-27

Read each chapter, attempt the questions, and support explanations with working or textbook evidence.

Choose a chapter or topic

CBSE Computer Applications	
Unit 1	Networking
Unit 2	HTML
Unit 3	Cyber Ethics

First Hope

UNIT 1

Networking

CBSE Computer Applications

1. Distinguish a web browser from a web server.
2. Explain the roles of a URL, domain name and IP address.
3. Compare a LAN with a WAN using a school-network example.
4. Distinguish uploading from downloading.
5. Explain why HTTPS is preferable for submitting personal information.
6. Compare email, video conferencing and a shared online document for a group assignment.

UNIT 2

HTML

CBSE Computer Applications

1. Write an HTML document with a title, main heading and paragraph.
2. Create a hyperlink to a second page and explain relative and absolute paths.
3. Write an image element with meaningful alternative text.
4. Explain how headings differ from merely enlarging text.
5. Create an ordered list and an unordered list for different types of information.
6. Explain why properly nested tags make a document easier to maintain.
7. Write a table with headers Name and Score and two data rows.
8. Explain the difference between th and td.
9. Create a form with a text input, labelled radio buttons and a submit button.

10. Distinguish radio buttons from checkboxes by selection behaviour.

11. Write a simple style rule that changes paragraph text colour and explain its target.

12. Explain why structure and readable presentation should support each other on a webpage.

UNIT 3

Cyber Ethics

CBSE Computer Applications

1. Distinguish plagiarism from properly attributed use of a source.

2. Explain why a strong password should not be shared even with a friend.

3. Identify two warning signs of a phishing message.

4. Describe responsible action if a classmate's private photograph is circulated without consent.

5. Distinguish open-source software from software that is merely available at no price.

6. Explain why consent and limited data collection matter in an online form.
