CLASS 12

Geography

Sample Paper 2 - Questions

30 questions | 70 marks | 2026-27

Time: 3 hours. Answer all questions and subparts unless a choice is stated. Marks are shown on the right. Write answers on separate sheets. Independently prepared practice paper.

Section A - Objective questions

1. Select the term described below. Spatial relationships between people and environments are studied. 1
(A) Secondary activity (B) Rainwater harvesting (C) Human geography (D) Population density

2. Select the term described below. Population divided by area measures concentration. 1
(A) Rainwater harvesting (B) Population density (C) Human geography (D) Secondary activity

3. Select the term described below. Birth and death rates change with broader social and economic conditions. 1
(A) Human geography (B) Secondary activity (C) Rainwater harvesting (D) Demographic transition

4. Select the term described below. Capabilities and access to opportunities matter alongside income. 1
(A) Secondary activity (B) Rainwater harvesting (C) Human geography (D) Human development

5. Select the term described below. A condition encourages departure from a place. 1
(A) Push factor (B) Human geography (C) Rainwater harvesting (D) Secondary activity

6. Select the term described below. A condition attracts migrants to a destination. 1
(A) Rainwater harvesting (B) Human geography (C) Pull factor (D) Secondary activity

7. Select the term described below. People obtain resources directly from the environment. 1
(A) Primary activity (B) Human geography (C) Rainwater harvesting (D) Secondary activity

8. Select the term described below. Materials are transformed through processing or manufacturing. 1
(A) Rainwater harvesting (B) Human geography (C) Primary activity (D) Secondary activity

9. Select the term described below. Services support people and economic activity. 1
(A) Rainwater harvesting (B) Human geography (C) Primary activity (D) Tertiary activity

10. Select the term described below. Knowledge-based services process information and specialised expertise. 1
(A) Human geography (B) Rainwater harvesting (C) Quaternary activity (D) Primary activity

11. Select the term described below. Concentration produces shared advantages for related economic activities. 1
(A) Agglomeration (B) Human geography (C) Primary activity (D) Rainwater harvesting

12. Select the term described below. A growing share of people live in urban settlements. 1
(A) Urbanisation (B) Primary activity (C) Human geography (D) Rainwater harvesting

13. Select the term described below. Land and water are managed within a drainage area. 1
(A) Watershed management (B) Human geography (C) Rainwater harvesting (D) Primary activity

14. Select the term described below. Rainfall is collected for storage or recharge. 1
(A) Rainwater harvesting (B) Human geography (C) Primary activity (D) Watershed management

15. Select the term described below. An area is economically connected with a central place or port. 1
(A) Primary activity (B) Human geography (C) Watershed management (D) Hinterland

16. Select the term described below. Mobility is planned with resource efficiency and environmental effects in view. 1
(A) Human geography (B) Primary activity (C) Watershed management (D) Sustainable transport

17. Select the term described below. A crop is generally sown with the southwest monsoon season and harvested later in the year. 1
(A) Primary activity (B) Kharif crop (C) Watershed management (D) Human geography

Section B - Case and application questions

18. Consider the following case: A researcher examines settlement patterns and livelihoods.

(a) Identify the relevant concept. 1

(b) Explain how the situation illustrates it. 2

19. Consider the following case: Two equally populated regions differ in density when their areas differ.

(a) Identify the relevant concept. 1

(b) Explain how the situation illustrates it. 2

Section C - Short responses

20. Define Human geography and illustrate it with a relevant example. **3**

21. Define Population density and illustrate it with a relevant example. **3**

22. Define Demographic transition and illustrate it with a relevant example. **3**

23. Define Human development and illustrate it with a relevant example. **3**

Section D - Extended responses

24. Distinguish push and pull factors of migration. Explain how employment, environmental stress and access to services can shape migration decisions. **5**

25. Explain five geographical or economic factors influencing industrial location, giving a suitable link for each. **5**

26. Explain five measures for conserving and managing water resources in India. **5**

27. Explain how roads, railways, ports, air transport and communication networks can support the movement of goods, people and information. **5**

28. Explain five ways improved transport can affect settlement and economic activity, including one possible uneven or adverse effect. **5**

Section E - Location knowledge - written alternative

29. Location-identification alternative: identify each place or region from the clues. One mark each. **5**

(a) Indian state in which Mumbai is located.
(b) State in which Chennai is located.
(c) State in which Kolkata is located.
(d) State in which Kochi is located.
(e) State in which Bengaluru is located.

30. Location-identification alternative: identify each place or region from the clues. One mark each. **5**

(a) Continent in which Tokyo is located.
(b) Continent in which London is located.
(c) Continent in which New York is located.
(d) Ocean east of much of Africa.
(e) Ocean between the Americas and Europe/Africa.
