

General Medicine - Six-month Rotation

Experiment 2 - Practical Notes

Name: _____ Roll no.: _____ Date: _____

Aim

To complete and document the general medicine - six-month rotation internship activity.

Principle

General Medicine training develops integrated case assessment, medicine review, follow-up and communication in the allocated ward.

Requirements

- Institution-approved rotation plan and clinical service procedures.
- Allocated patient/ward records accessed with permission, activity log and preceptor.

Procedure

1. Prepare daily cases

Review new admissions, current problems, medicines and significant changes.

2. Provide clinical pharmacy input

Verify medicine history, identify medicine-related issues and communicate a reasoned plan within the approved role.

3. Follow patients

Track agreed response and safety endpoints, treatment changes and outcomes.

4. Support discharge

Reconcile the authorised list, counsel and communicate the follow-up needs.

Internship and Residency

5. Review progress

Meet the preceptor to assess work records, knowledge, skills and professional behaviour.

Observations and Record

Record item	Entry
Dates / allocated ward	_____
Cases and pharmacy services	_____
Interventions / outcomes	_____
Discharge work	_____
Preceptor progress review	_____

Result

Activity / date: _____. Work completed: _____. Preceptor feedback: _____. Follow-up: _____.

Precautions

- Enter only work actually performed; leave supervisor verification and certification fields for the authorised person.
- Use coded cases and protect patient privacy.
- Escalate urgent clinical issues through the treating team and follow the institution-approved responsibilities.

Viva Questions and Answers

1. Why maintain a verified work record?

It documents the activity, competency and feedback required for assessment.

2. What supports a clinical recommendation?

Current patient findings, suitable medicine information and a clear rationale within the approved clinical role.
