

Medicine Distribution and Resource-use Review

Experiment 9 - Practical Notes

Name: _____ Roll no.: _____ Date: _____

Aim

To complete and document the medicine distribution and resource-use review internship activity.

Principle

Clinical pharmacy services include coordination of safe and timely medicine supply and appropriate use of healthcare resources.

Requirements

- Institution-approved rotation plan and clinical service procedures.
- Allocated patient/ward records accessed with permission, activity log and preceptor.

Procedure

1. Map the workflow

Record order receipt, verification, dispensing, administration information and returns in the assigned ward.

2. Identify a risk

Review a supplied/allocated delay, discrepancy, expiry or shortage concern and its clinical relevance.

3. Propose a response

Discuss a feasible process correction or authorised alternative supply route with responsible personnel.

4. Evaluate

Record timing, resolution and any remaining patient-care issue.

5. Document learning

Link the observation to safety and resource stewardship without inventing cost savings.

Internship and Residency

Observations and Record

Record item	Entry
Workflow / issue	_____
Patient-care consequence	_____
Proposed response	_____
Owner / resolution	_____
Measured process outcome	_____

Result

Activity / date: _____. Work completed: _____. Preceptor feedback: _____. Follow-up: _____.

Precautions

- Enter only work actually performed; leave supervisor verification and certification fields for the authorised person.
- Use coded cases and protect patient privacy.
- Escalate urgent clinical issues through the treating team and follow the institution-approved responsibilities.

Viva Questions and Answers**1. Why maintain a verified work record?**

It documents the activity, competency and feedback required for assessment.

2. What supports a clinical recommendation?

Current patient findings, suitable medicine information and a clear rationale within the approved clinical role.
